

WHO IS GOING TO CLEAN UP?

This is never an easy topic to talk about, but it is a very important issue. Who is going to clean up?

Unfortunately, we often receive this question after a tragic incident. We are not able to provide a recommendation to you about any company in particular, however in response to many families asking this question, we are providing you with a list of some Cleaners who are available to serve our community. You are welcome to search and find other companies, as this is not an all-inclusive list.

Many Home Owner's Insurance Policies provide for Clean Up of Bio-hazard Materials. You would need to consult the Home Owner's Policy to ensure coverage. You are welcome to contact a company and request a quote from them.
